

How to measure your foot.

1. Calibrate chart by ensuring 1 cm on the chart equals 1 cm
2. Fold the corner of the page along the dotted line
3. Place paper against wall with folded corner parallel to wall
4. Place heel against wall on top of paper
5. Record the size of your foot

The size of your foot in centimeters is equal to your Japanese Shoe size
Mens US and Womens US sizes are indicated
Compare your sizes with our size chart online for more equivalent sizes
